PROJECTS

Portfolio Website | HTML, CSS, JavaScript | <https://archimparmar.github.io/e-portfolio/>

- Developed a comprehensive and visually engaging portfolio website to showcase my skills, projects, and professional experience. The website serves as a digital resume, highlighting my expertise in web development, design, and various technical skills. Features include a responsive design, interactive project displays with modal pop-ups, an image slider. The site is optimized for all devices and highlights my technical expertise and project achievements.

E-commerce Website | HTML, CSS, JavaScript

- E-Commerce Website: Developed a fully functional e-commerce platform using HTML, CSS, JavaScript, and PHP. The site includes a comprehensive shopping cart and checkout system, user authentication, and a dynamic product catalog. Emphasized a user-friendly interface and secure payment processing, resulting in an enhanced shopping experience.

Landing Page for Solar Panel | HTML, CSS, JavaScript, PHP

- E-Commerce Website: Developed a fully functional e-commerce platform using HTML, CSS, JavaScript, and PHP. The site includes a comprehensive shopping cart and checkout system, user authentication, and a dynamic product catalog. Emphasized a user-friendly interface and secure payment processing, resulting in an enhanced shopping experience.

Doctor Appointment Page | WordPress

- Created a user-friendly appointment booking page for a healthcare provider using WordPress. The page allows patients to easily schedule appointments through a streamlined form and view available slots. Features include a prominent 'Book Appointment' button and a responsive design to ensure accessibility across all devices.

EXPERIENCE

Apex Software House (April 2024- June 2024 as intern & Employee from July 2024) *Front End Web Developer & Office Management*

- Developed and maintained responsive websites using HTML, CSS, and JavaScript.
- Collaborated with designers to create user-friendly interfaces.
- Improved website load times by optimizing code and resources.
- Managed social media posting and digital marketing campaigns to increase brand awareness.
- Scheduled and coordinated work tasks, ensuring timely project delivery.
